## Information about MANOSMED

**MANOSMED:** Mastology Association Of Northern and Southern Mediterranean  
Website: [www.manosmed.com](http://www.manosmed.com).

The MANOSMED was founded in 1991 in Barcelona, Spain, by eminent physicians from European countries working mainly on breast diseases. Professor Jean Louis Lamarque from Montpellier University, France, was elected as the 1<sup>st</sup> President.

MANOSMED, which emerged at the end of last century as a Mobile University gathering a limited number of academic physicians aiming to teach the art and science of Mastology, succeeded in the year 2010 to be recognized by the Faculty of Medicine of the Montpellier University as an official provider of Mastology education.

The 1<sup>st</sup> Manosmed Course was organized in 2002 in Hammamet, Tunisia, by Professor Radhi Hamza. Since then, many other courses were organized in different countries.

In 2003, in collaboration with Mompellier University (France), the status of MANOSMED was modified from a Scientific Association of Mastology to a Mobile University of Mastology.

MANOSMED Mobile University was recognized in 2009 by the prestigious Senologic International Society (SIS)

### **Diplome Inter-Universitaire de Mastologie**

In 2012, MANOSMED, in collaboration with Montpellier University (France) created the MANOSMED DIU (Diplome Interuniversitaire) de Mastologie.

MANOSMED, as the Mediterranean Association is the exclusive official provider of the Mastology (Senology) education that leads to this certification offered to physicians, residents and health practinioners who register to the MANOSMED courses taking place in different Mediterranean countries. The courses organized by MANOSMED are accredited by the Montpellier University.

The first course to be academically recognized was the course in Tartous, Syria, in 2009. Beginning in 2011, two courses per year were organized, one in spring and the other in autumn, giving better chances to candidates to complete the course.

The full Program for the Post-graduate Diploma consists of 4 Modules:

1. Breast, disease and basic science
2. Benign breast diseases
3. Early breast cancer
4. Advanced breast cancer

Each Manosmed Course is a 3-day event and covers one (1) Module. It consists of approximately 25 hours of didactic lectures, seminars and case discussions followed by a multiple choice question examination.

The Lectures and the examination are given in English or in French. Each course is equivalent to 10 ECTS (European Credit Transfer and Accumulation System) and are transferable to all recognized European Universities.

Accreditation for the DIU Montpellier Diploma

All four (4) Courses (100 teaching hours) passed with success make the candidate eligible for the diploma delivered by Mompellier University.

## Invitation by the Course President

**Dr Andreas Patsalides, MD, PhD**  
MSc in Health Management  
Manosmed Mobile University Faculty Member  
Associate Professor  
Cyprus Manosmed Course President

Dear Health Professionals  
Dear Colleagues  
Dear Friends

It is a pleasure and an honour for me to invite you to participate in the Mastology Course organized by MANOSMED and the Mediterranean Mobile University.

The theme of the seminar is “Breast Basic Science and Basic Management of Breast Cancer” and is part (Modul 1) of the Postgraduate Diploma in Mastology granted by the University of Montpellier, France, when a candidate participates in the 4 Modules of the Course and passes the exam at the end of each seminar.

A Mastology Seminar is organized every 6 months in one of the 21 country members, has a duration of 3-4 days and covers 1 of the 4 Modules.

You may participate to increase your knowledge and skills in mastology, to cover the needs of continuous medical education (CME), to meet the breast specialists from the Mediterranean countries, or candidate for the MANOMEDI DIPLOMA of Mompelier University.

At the Seminar you will witness the solidity of the scientific information and the utility of the professional knowledge and expertise. The renowned invited speakers and the Manosmed Faculty Professors guarantee for that.

I anticipate your participation; your presence and interactivity will enrich the quality and the vitality of the Seminar. Success of the Course will enable us to organize another Modul of the Course in Cyprus in the near future.

President of MANOSMED  
Vice-President of Cyprus Course

Dear Colleagues and Friends,

It is a great pleasure and honour for me to invite and welcome you in the marvelous island of Cyprus, a country in the middle of the Mediterranean sea rich in 5000 years of great civilization.

I would like to congratulate the organizers and especially the course director,

Prof. Andreas Patsalides, who continues to combine high quality and expert professionalism, along the legendary Cypriot hospitality, and I am sure he will organize a wonderful course.

Cyprus is very rich in history and culture and I hope you take this opportunity to discover this marvelous country and its extraordinary diversity. Moreover, the nice weather of Pafos will allow you to have a good time. I am sure you will enjoy the lectures by the famous experts in the medical field of mastology, coming from various Mediterranean countries, in this Manosmed course.

I wait to see all of you in the next two courses, in October 2015 in Beirut, Lebanon, which will be organized by Prof. Negib Geahchan covering Module 3 (early breast cancer), and in November 2015 in Montpellier, France, for the *DU "Maladies du sein et dépistage"* which count also for the MANOSMED Diploma.

I will be very happy to welcome you in our Mobile University and we rely on you to promote MANOSMED and its principles: *freedom, equality and solidarity*.
